

# 2025 Scorecard

## for the Colorado General Assembly

Colorado Voters for Animals tracked a total of 16 animal-related bills at the state capitol this session, the largest number in our history. Of these, 10 were ultimately used for scoring. Highlights included two CVA-initiated bills: HB-1283, to implement recommendations of the Wild Horse Working Group, and HB-1299, Which establishes the Animal Protection Fund to help animals in disasters. We also worked closely on HB-1180 to prohibit the sale of dogs and cats in public spaces, and HB-1207, which aims to reduce the surrender of animals due to landlord and insurance restrictions.

## 2025 Bills

### HB-1034 - Changes to Dangerous Dog Statute

Position: **Support**

Outcome: **signed into law**

CVA supported this bill, which protects people in certain animal care professions by allowing them to receive restitution for serious injuries caused by a dog. Previously, if a dog injured a veterinarian, groomer, trainer, etc. in the course of performing their duties, the dog's owner was immune from criminal liability (unless the dog had already been declared dangerous). HB-1034 removes this exemption for dogs who cause "serious" bodily injury, defined as injuries with a substantial risk of death or serious permanent disfigurement or impairment, breaks or fractures.

### HB-1180 - Prohibit Pet Sales in Public Spaces

Position: **Support**

Outcome: **signed into law**

Colorado Voters for Animals testified in favor of this bill, which closes a loophole in existing law that some were exploiting in order to circumvent

animal health protections and spay/neuter requirements. HB-1180 makes it illegal to sell pet animals out of the backs of cars, in parking lots, and in other public spaces.

### HB-1207 - Pet Ownership in Residential Housing

Position: **Support** Outcome: **signed into law**

CVA testified in support of this bill that addresses barriers to pet ownership for Colorado homeowners and renters. The bill clarifies that insurance companies cannot refuse to insure or set rates based on the breed of a dog in any residential structure used for a residence and occupied by an owner or renter. It also requires publicly financed housing to be more pet-inclusive.

### HB-1283 - Wild Horse Project Management & Immunocontraception

Position: **Support**

Outcome: **signed into law**

Colorado Voters for Animals testified in support of this bill, which enacted many of the recommendations of the Colorado Wild Horse working group, a committee that was created following the passage of SB-275 in 2023. It transfers oversight of the Wild Horse Project from a nonprofit agency (created by the prior bill) to the Department of Agriculture, and directs the project to seek sources of funding to help care for wild horses, implement an immunocontraception program to

stabilize herd size, and establish a new advisory committee. CVA was pleased to stand with Governor Polis when he signed this bill into law.

### HB-1285 - Requirements for Veterinary Professional Associates

Position: **Oppose** Outcome: **signed into law**

Colorado Voters for Animals opposed this bill because it undermines the will of the voters who passed Proposition 129 in November of 2024. Prop. 129 aimed to help ease the shortage of veterinarians in Colorado by

creating a new professional designation, the Veterinary Professional Associate (VPA). After completing a master's level education program, VPA's would be allowed, under supervision, to perform certain procedures that only licensed veterinarians can currently perform. HB-1285 makes changes that some groups felt weakened the new law.

## **HB-1299 - Animal Protection Fund Voluntary Contributions**

Position: **Support** Outcome: **signed into law**

CVA testified in support of this bill, which creates a Colorado income tax donation program to fund assistance for animals in emergencies. Taxpayers expecting a Colorado tax refund can voluntarily designate part or all of their refund to benefit the Division of Animal Welfare. The money would be used to respond to emergency situations, such as natural disasters, to provide immediate care and possibly shelter for companion or farm animals. CVA stood with Governor Polis at the ceremony when he signed HB-1299 into law.

## **HB-1332 - State Trust Lands Conservation & Recreation Work Group**

Position: **Support** Outcome: **signed into law**

CVA supported this bill that creates a study committee to look into opportunities to advance conservation and recreation activities on state trust lands. CVA's interest involves the possibility of improving protections for wild horses.

## **SB-085 - Adoption of Research Animals**

Position: **Support** Outcome: **signed into law**

Colorado Voters for Animals testified in support of this bill that requires dogs and cats who are used in research facilities to be offered to a shelter or rescue for adoption into forever homes after experimentation on them has ended. CVA was pleased to be invited to stand with Governor Polis when he signed this bill into law.

## **SB-149 - Local Government Equestrian Protections**

Position: **Support** Outcome: **signed into law**

Although horses have the right of way in equestrian areas, increasing conflicts with other road and trail users indicate that not everyone is familiar with the law. This bill aims to improve safety for horses, riders and other users by authorizing local governments to create equestrian zones and crossings, and to erect signage to increase public awareness of the proper procedures to follow. CVA testified in support of this bill.

## **SB-168 - Prevent Wildlife Trafficking**

Position: **Support** Outcome: **signed into law**

CVA supported this bill that adds additional state level penalties to prevent the trafficking of endangered wildlife in and out of Colorado. It adds all species appearing in Appendix 1 of the Convention on International Trade in Endangered Species (CITES) to those covered under Colorado's existing wildlife trafficking and possession laws. Animals listed will now include non-native endangered animals and items made from endangered wildlife such as ivory, fur, etc. Depending on the value of the animals or items involved, penalties range from the suspension of hunting and fishing licenses to large fines and felony charges.

## **Other Bills (Not Scored):**

### **HB-1064 - Prohibit Cultivated Meat**

Position: **Oppose**

Outcome: **sponsor postponed indefinitely**

This bill would have made it illegal to manufacture or sell cultivated meat in Colorado. Cultivated or "lab grown" meat is made by harmlessly taking living cells from an animal and growing them to create a product that is essentially the same as meat from a slaughtered animal. In theory, cultivated meat could have significantly less environmental impact than conventional meat production, while increasing options for consumers who do not wish to support the killing of animals. Colorado Voters for Animals had planned to testify against this bill, on the grounds that such a ban would stifle innovation and violate the federal Commerce Clause and the Dormant Commerce Clause. However, the sponsor pulled the bill before a formal hearing took place. HB-1064 was sponsored by Rep. Ty Winter and Senator Rod Pelton.

### **HB-1074 - Standards for Egg-Laying Hens**

Position: **Oppose** Outcome: **defeated in committee**

This bill was an attempt to repeal a law passed in 2020, which requires eggs sold in Colorado from large commercial producers to be cage-free by January 1, 2025. Cage-free hens are required to have a minimum of one square foot of space per bird. The sponsors of HB-1074 claimed it was now necessary to repeal this law due to the rising cost of eggs. Numerous witnesses testified that

the cost increase is due to avian influenza outbreaks that resulted in millions of hens being killed. Had the bill passed, it would have forced hens back into battery cages to live most of their lives in 76 square inches of space, roughly 8.5 by 7.88 inches. Colorado Voters for Animals testified in opposition to the bill, which was defeated in committee. The sponsors of this bill were Rep. Ryan Gonzalez and Sen. Barbara Kirkmeyer.

### HB-1258 - Scientific Wildlife Management

Position: **Support**

Outcome:

**defeated in committee**

CVA testified in support of this bill, which was sponsored by Reps. Tammy Story and Elizabeth Velasco. If passed, it would have required Colorado Parks and Wildlife (CPW) to apply the best available science to decisions about managing wildlife populations, and to adopt rules that benefit wildlife, whole ecosystem health and all Coloradans. Current law *requires* CPW to use hunting, trapping or fishing as the primary means of managing wildlife. Although the bill did not restrict hunting, it encountered heavy opposition from hunting interests, both national and home-grown, who believed this bill was intended to end their ability to hunt.

### HB-1137 - Adopt a Shelter Pet Funds for Community Cats

Position: **Neutral** Outcome: **signed into law**

CVA opposed the initial version of this bill, which would have diverted 20% of the funds collected by the Colorado Pet Over-

population Fund (CPOF) to trap, neuter and return (TNR) programs for feral cats. Animal shelters across the state rely on funds provided by the CPOF. During the legislative process, the bill was amended so that it allows funding for TNR, but does not require a particular percentage to be spent on it. As a result of this and other changes, CVA moved our position to neutral.

### SB-139 - Grocery & Utility Bill Reduction Measures

Position: **Oppose**

Outcome: **defeated in committee**

This bill sponsored by Sen. Mark Baisley contained several measures that aimed to reduce household costs in the state, including the repeal of certain charges associated with groceries or utilities.

CVA opposed this bill because among these was a proposal that, similar to HB-1074, called for repealing Colorado's cage free law for egg laying hens.

### SB-159 - Use of Veterinary Telehealth

Position: **Support**

Outcome: **defeated in committee**

This bill would have removed the requirement that a veterinarian must first establish a veterinarian-client-patient relationship (VCPR) through an in-person physical exam before employing telehealth. SB-159 would have allowed veterinarians to use telehealth

at their discretion to establish such a relationship, prior to diagnosing conditions or prescribing certain medications, via audio-video based communication technology. This is particularly important in rural areas where access to veterinary care is limited. CVA supported this bill, which unfortunately was defeated in committee. The sponsors of SB-159 were Sen. Faith Winter and Sen. Lisa Cutter.

## About Colorado Voters for Animals

Colorado Voters for Animals is an all-volunteer, nonpartisan, nonprofit organization incorporated as a 501(c)(4) that works politically at the local, state and federal levels. Our mission is to protect animals through public policy and to support candidates who are committed to animal protection. We lobby lawmakers to vote for humane legislation and defeat inhumane legislation, and mobilize our members to communicate with their legislators. In addition to compiling and publicizing this scorecard, we also survey candidates about animal issues, and make information from both of these sources available to voters so they can make informed choices on Election Day.

CVA also has a separate Small Donor Committee (SDC), established to help get humane candidates elected.

***If you value the information that CVA provides, and our advocacy work to pass strong animal protection laws, please consider making a contribution. You can support our ongoing efforts to be "a voice for the voiceless and a vote for the vote-less" at [Covotersforanimals.org/donate](https://Covotersforanimals.org/donate)***

## About the Voting Scores

- The numerical score is the legislator's score on actual votes, which are based only on a bill's third and final reading.
- The letter grade is our overall assessment of the legislator's performance. We considered votes, bill sponsorship, and any "behind-the-scenes" efforts affecting animal-related legislation. The "Other Factors" column recognizes some of these efforts, including sponsorship of bills that did not make it through the committee process (see "Other Bills" above).
- The "CLAW Attendance" column indicates which legislators attended (or sent an aide to attend) one or more meetings of the Colorado Legislative Animal Welfare Caucus during the session.

**NOTE: The scores don't tell the whole story!** Sometimes a legislator is either more or less animal friendly than their score indicates. This is especially true during years when there are few animal-related bills available for scoring.

## Who are My Legislators?

You can find out which Colorado state House and Senate districts you are in by entering your address in the *Find My Legislator* tool on the Colorado General Assembly website: [leg.colorado.gov/find-my-legislator](http://leg.colorado.gov/find-my-legislator)
