

# PowerVS2500 - Try IBM Power Virtual Server Risk Free

Potential new PowerVS clients receive \$2,500 credits, allowing them to try PowerVS for up to three months at no cost

## Use Credits To:

- Migrate IBM i P05 Tier to PowerVS with free cloud consumption during migration
- Create a hybrid cloud environment in PowerVS for disaster recovery, application development and modernization, and Dev/Test on the latest P10 and P11 servers

## \$2,500 in Credits, Risk Free For Up To 90 Days

- Free trial for PowerVS and supporting IBM cloud services
- Up to three months at no cost dependent upon the size of the virtual instance environment
- Access to IBM Cloud services for PowerVS and VPC environments
- Compute, storage, networking, security, and automation features included
- Built-in resiliency, disaster recovery, and scalability
- Secure support for hybrid cloud workloads
- Credits expire after 90 days and must be used within that period

## PowerVS QuickStart (Optional)

- Select either terraform automated deployment with QuickStart or traditional provisioning experience
- QuickStart provides pre-configured virtual server instances, available in the IBM Catalog as t-shirt size options, for all PowerVS-supported operating systems, helping you maximize your credits

## Interested in PowerVS2500?

- It's easy to get started
- [Log in](#) to your IBM Cloud account or click [here](#) to create one
